Professional Summary

Motivated and tech enthusiast BCA graduating student with hands-on experience in cybersecurity tools and solid foundational skills in python programming, databases, and system administration. Skilled in SOC operations. Passionate about cybersecurity with a goal to grow into a Security Analyst role. Eager to learn, adapt, and grow through Wipro's WILP program.

Education

Bachelor of Computer Applications (BCA)

CGPA : 8.8/10

HKBK Degree College, Bangalore

2022 – 2025

Technical Skills

- Cybersecurity Tools: Splunk, IBM QRadar, Nmap, Wireshark
- Threat Detection & Response: Log Analysis, IDS/IPS, Packet Capture, Vulnerability Management
- Programming/Scripting: Python
- Databases: SQL, MySQL
- Operating Systems: Windows, Linux
- Networking: TCP/IP, OSI Model, Firewalls, VPN
- Soft Skills: Problem Solving, Documentation, Communication, Team Collaboration

Internship Experience

Cybersecurity Intern

CodTech IT Solutions — Dec 2024 – March 2025

- Assisted in real-time log monitoring and basic triage of alerts
- Participated in phishing email analysis and escalation
- Delivered awareness presentation on phishing detection

Certifications

- Google Cybersecurity Certificate – Google
- IBM Cybersecurity Certificate – IBM
- Python Programming – EC Council
- Cloud Security – EC Council
- Vulnerability Assessment – EC Council
- Cybersecurity Analyst Job Simulations – TATA Group, Mastercard

Projects & Labs

SOC Analyst Virtual Lab

- Monitored real-time logs using Splunk
- Created alerts, dashboards; triaged brute-force attempts

Vulnerability Assessment Project

- Scanned Metasploitable2 with Nessus & Nmap
- Reported and mitigated high-risk vulnerabilities

SIEM Simulation with IBM QRadar

- Detected suspicious login behavior and setup real-time dashboards
